Education

B.E (CSE), University College of Engineering, Anna University with 69% | 2013 - 2017 | Panruti, TN

H.S.C, N.L.C Girls HSS with 81.6% | 2011 - 2012 | Neyveli, TN

S.S.L.C (10th), St. Joseph's High school with 86.8% | 2010 - 2011 | Neyveli, TN

Technical Skills

- Backend**
- Python - FastAPI
 - PHP - Laravel, CodeIgniter
- Frontend**
- React.js
 - Next.js
 - JavaScript
 - HTML
 - CSS
- Search & Indexing**
- Elastic Search
 - Typesense
- Databases**
- MySQL
 - MongoDB
 - Clickhouse
 - Redis
- Tools & Platforms**
- FFmpeg, Git, Jira
 - AWS, GCP, Jot URL
 - Mage AI, Adjust, MoEngage
 - Docker, Kafka, CDC

Language

English - Read, Write, Speak

Tamil - Read, Write, Speak

SUGANTHI S

Backend Developer | Python | Fast API | PHP | Codeigniter

Professional Summary

Backend developer with 7+ years of experience building scalable applications using Python (FastAPI), PHP (CodeIgniter), React.js, and Next.js. Proficient in MySQL, MongoDB, Elasticsearch, and Typesense. Experienced in real-time communication with WebSockets and 100ms video integration. Skilled in integrating third-party APIs (Razorpay, Exotel, Gupshup) to enhance user interaction and automation. Strong expertise in Redis caching, REST API development, and agile methodologies with Git.

Professional Experience

- Senior Backend Developer | Apr 2025 – Present**
Bosswallah Technologies Private Limited (Formerly Bossworks) | Bengaluru
 - Lead the architecture and development of scalable backend services using Python (FastAPI) and microservices architecture.
 - Design and optimize database schemas, indexing strategies, and data models for high-performance applications.
 - Integrate and manage subscription and payment workflows using Stripe and RevenueCat.
 - Leverage AI-powered development tools such as Cursor and Claude Code to accelerate development, code reviews, debugging, and system design.
 - Architect and implement scalable REST APIs, authentication systems, and third-party integrations.
 - Drive technical decision-making, code quality standards, and backend best practices across projects.
 - Collaborate with product, frontend, and DevOps teams to deliver reliable and scalable business solutions.
- Backend Developer | Jul 2021 – Apr 2025**
Bosswallah Technologies Private Limited (Formerly ffreedom App) | Bengaluru
 - Built scalable microservices and REST APIs using Python (FastAPI) and maintained legacy systems in PHP (CodeIgniter).
 - Developed CRM platforms, dashboards, and frontend applications using React.js.
 - Optimized application performance with MySQL, MongoDB, Redis, Elasticsearch, and Typesense.
 - Automated analytics workflows using Mage AI and implemented payment gateway integrations (Razorpay, PhonePe).
 - Delivered real-time communication solutions using WebSockets, 100ms, Exotel, and Gupshup.
- Junior PHP Developer | October 2018 – April 2021**
Pixel Tech I Chennai
 - Developed and maintained web applications using Core PHP, WordPress, OpenCart, and CodeIgniter.
 - Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, and jQuery.
 - Collaborated with clients to gather requirements and deliver customized web solutions.
 - Integrated APIs and enhanced application functionality and performance.
 - Followed coding standards and best practices to develop scalable and maintainable applications.

Projects

Bossworks & Bosswallah

Technologies: Python (FastAPI), React.js, MySQL, MongoDB, Redis, ClickHouse, Stripe, RevenueCat

BossWorks and BossWallah are AI-powered platforms that help entrepreneurs start, manage, and scale their businesses. Whether you want to launch and build a profitable small business, or master digital skills for business, Boss Wallah guides you step by step—from ideation to execution

Key Contributions:

- Independently designed and developed the complete User Feedback and Helpdesk Management System using React.js and FastAPI. Developed scalable backend microservices and REST APIs using FastAPI.
- Designed database schemas and optimized queries for MySQL, MongoDB, Redis, and ClickHouse.
- Integrated Stripe and RevenueCat for subscription and payment management. Built onboarding, reporting, user feedback, and business automation modules.
- Automated analytics workflows and reporting using Mage AI. Leveraged Cursor and Claude Code for rapid development, debugging, and solution design.

Communication & Search Platform

Technologies: Python (FastAPI), WebSockets, Redis, Elasticsearch, Typesense, 100ms

A platform providing real-time communication and intelligent search capabilities, enabling users to connect with experts through chat and video consultations while delivering fast and relevant content discovery.

Key Contributions:

- Developed real-time chat and video consultation features using WebSockets, Redis, and 100ms.
- Designed scalable FastAPI microservices and search APIs using Elasticsearch and Typesense.
- Designed and implemented Elasticsearch and Typesense search solutions. Developed search APIs supporting filtering, ranking, and autocomplete features.
- Optimized indexing performance and query response times for large datasets. Improved content discoverability across web and mobile applications.

Internal CRM Platform

Technologies: PHP (CodeIgniter), React.js, MySQL, Redis, Elasticsearch, MoEngage

A comprehensive internal CRM platform used for managing employees, incentives, salaries, customer communications, course operations, and business reporting. The platform streamlined multiple operational processes into a centralized management system.

Key Contributions:

- Developed and enhanced modules for employee, salary, incentive, and course management.
- Built a cloud-based click-to-call solution integrating multiple telecom providers. Implemented Redis caching to improve application performance and reduce database load.
- Developed Elasticsearch indexing services for fast and accurate data retrieval. Integrated MoEngage notifications and reporting dashboards for operational insights.

Corporate & E-Commerce Website Development

Technologies: PHP, WordPress, OpenCart, HTML, CSS, JavaScript, jQuery, MySQL

Developed and maintained corporate websites and e-commerce platforms for multiple clients, delivering responsive and high-performance web solutions.

Key Contributions:

- Developed dynamic websites and e-commerce applications using Core PHP, WordPress, and OpenCart. Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, and jQuery.
- Customized WordPress themes, plugins, and OpenCart modules based on client requirements. Optimized website performance, SEO, and database structures for improved user experience. Collaborated directly with clients to gather requirements and deliver tailored web solutions.
